

Data Analytics

Course syllabus · Mindfull Methods

Level: Project Based · Duration: 7 weeks · Format: Online

Pricing: INR 12,999 · Cohort-based

Overview

This track focuses on practical analysis: from cleaning and interpreting data to communicating results. You'll learn how to build dashboards that stakeholders actually use-and you'll iterate with mentor feedback.

What you'll learn

- ? Ask better questions and define metrics that matter
- ? Clean and transform data for analysis
- ? Build stakeholder-friendly dashboards
- ? Communicate insights with clarity and confidence
