

Frontend Engineering

Course syllabus · Mindfull Methods

Level: Beginner Friendly · Duration: 8 weeks · Format: Online

Pricing: INR 12,999 · Cohort-based

Overview

A mentorship-led course designed to take you from fundamentals to polished, production-ready frontends. You'll ship guided projects, get code reviews, and learn how to think like a UI engineer.

What you'll learn

- ? Build reusable UI components with accessibility in mind
- ? Create performant pages with Next.js routing and data patterns
- ? Design consistent styles using tokens and component variants
- ? Ship a capstone project with a polished demo-ready README

Weekly milestones

Week 1

- ? JS + React refresh
- ? Component patterns
- ? State & effects

Week 2

- ? Styling systems
- ? Responsive layouts
- ? Tailwind component design

Week 3

- ? Next.js fundamentals
